GLASSWARE

• SERVICE LINE

A photograph of crystal glassware including a decanter and two wine glasses, one containing red wine, set against a dark background with a wooden surface and grapes in the foreground.

Handcrafting glass is an art form that combines creativity and competence, but talent can only shine when it is assured of superb material to work on. The material sculpted into shape by the glass masters at Denizli is crystalline as defined by international standards. Crystalline compositions allow for exquisitely clear and sparkling products with superior resonance.

Polycarbonate is an elegant yet durable alternative to glassware in the hospitality industry. Perfect for casual handling at the pool side, on a bar rack and much more. A wide variety of drencher and tumblers which can have a versatile use.
